

**SAN FRANCISCO BOTANICAL GARDEN at STRYBING ARBORETUM FIELD TRIP
Friday December 4, 3:00-4:00pm**

Schedule: Please meet at the Main Gate of the San Francisco Botanical Garden at 3:00 pm. We will head into the main gate and then south to the California Gardens. During the field trip we will explore the gardens, noting plant adaptations to Mediterranean climates. Because parking is limited, you are encouraged to carpool or to take public transportation. For directions and more information about the SF Botanical Garden, refer to their website: <http://www.sfbotanicalgarden.org/>.

What to Bring: Please bring a notebook and pencil/pen. Plan on attending rain or shine.

Assignment: The San Francisco Botanical Garden specializes in plants from Mediterranean climates. In a brief paper, please describe the following:

- What is a Mediterranean climate?
- What are challenges to plants that live in such a climate?
- Describe the adaptations to a Mediterranean climate by 1 plant that you observed at the SF Botanical Garden.
- **assignment is due in class on December 8**
